# THIS WEEK'S SUMMARY

- Discord reorganization.  
Announcements: please check the channel regularly, as we're trying to limit the use of @everyone
- Workflow for ideas and brainstorming decided last meeting:  
Forum post for brainstorming -> Poll for community feedback -> Implementation (implementers to be decided during "Big Meetings")  
(community polls to be run by PMs and announced appropriately)
- PM / Coordinators channel (private) was created for discussions between PMs and Teams Coordinators
- Draft of Code of Conduct has been published to GitHub for the organization (to be reviewed).
- Art Assets and Requests forum created (read guidelines!) - More during Coordinator update on this.
- mdBook setup - This will be the home for documentation currently (coordinators are responsible for getting their teams to use mdBook, where applicable)

- 3** Build was only team we had gotten updates for at this point, maybe delete slide and just lets coordinators come to stage and talk if they want?  
Andy Durcholz, 15/02/2025
- 1** I'd leave the slide up for when we have coordinator come to stage  
Elena Franco (DElyMyth), 15/02/2025
